Customizing lottery
merchandising displays
for more than 30 years

Take-A-Ticket Inc.

Made in the USA Since 1985

TAT
TAKE-A-TICKET INC.
ESTABLISHED 1985

Established in 1985, Take-A-Ticket is the original inventor of Instant Ticket Dispensers. We provide a wide variety of ticket dispensers and merchandising displays for more than 25 US lotteries. Because no two lotteries are alike, Take-A-Ticket provides custom fabrication and design services to meet each lottery's specific needs. We employ 27 full-time employees in our 45,000 sq. ft. manufacturing facility located in Albany, Oregon.

Change Mat 24

Our super thin, durable change mat displays up to 24 games on the counter right at the point-of-sale.

Change Mat 24

- Base constructed from durable ABS plastic
- The low-profile display is only ¼" in height
- Features low-cost easily replaceable tempered glass cover
- Allows retailers to easily update game inserts or sample tickets
- Glass is pre-numbered 1-24 using our Logo Jet printer, making product selection easy for players and retailers

Curved Lighted Menu Board

This bright, sturdy, eye-catching display with magnetized door lets retailers easily update game inserts or sample tickets

Curved Lighted Menu Board

- Display units available from 16 to 48 games
- Customizable configuration offers ultimate flexibility
- Eye catching LED Lights makes your ticket display pop
- Easy open, magnetized door makes it quick and easy to update the display
- Constructed of strong, durable ABS plastic
- Single-piece units can be mounted on a shelf or counter
- Mounts securely to the counter using double-sided tape or screws

OCTX On-Counter Dispenser

The OCTX dispenses 8" and 12" Super Tickets and 4" tickets from the same bin, allowing you to add oversize tickets and increase facings without adding more bins.

OCTX On-Counter Dispenser

- Units available from 16 to 48 games
- Top row can dispense 12" x 12" and 8" x 8" Super Tickets
- Holds pack sizes up to 12" in length
- Tickets lay flat to prevent ticket curling
- Individual row locking covers enhances security
- Front display slots make it easy to replace insert cards and sample tickets
- The clear plastic unit allows clerks to see customers through the dispenser and allows customers to see live tickets inside
- Optional Super Ticket display available
- Easily increase facings by adding additional rows

Lighted Poster Display

A brightly lit, eye-popping slim aid that allows you to display lottery games on the back wall when counter space is limited.

- Display units available from 16 to 40 games
- Securely mounts to the back wall or counter
- Hinged front door opens to let retailers easily update ticket insets or sample tickets
- Durable, abrasion resistant front door helps protect against scratching or wear
- Eye-catching, bright LED lights provide the ultimate product visibility

Lighted Poster Display

HTDD Display

Ideal for small spaces, the HTDD rotating display displays up to 48 games using a space saving design.

- Display units available from 16 to 48 games
- Ideal for retailers with multiple selling locations
- The rotating display tower only requires 10" of counter space
- Eye catching LED lights will draw attention to lottery games
- Features low-cost replaceable clear display windows
- Removeable drawers makes ticket loading a snap
- Optional locking covers available to enhance security
- Optional bases available—see page 9

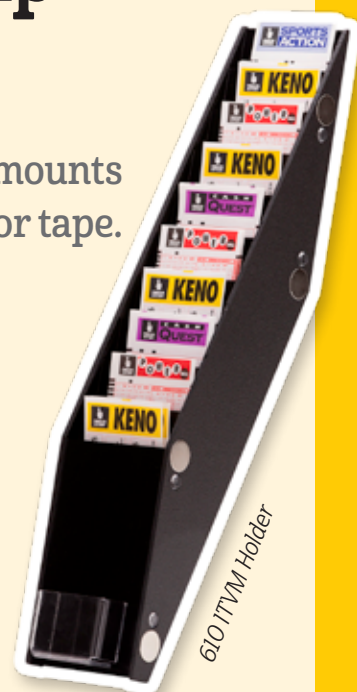

HTDD Display

LogoJET Printing Technology

Now you can customize or co-brand product merchandising dispensers and displays:

LogoJET printing technology provides endless applications for custom fabrication. Samples of logoed promotional items:

Calvin L. Tigner, Founder

In 1985, the first week the Oregon Lottery was in business, Cal Tigner stopped at a convenience store for a soda. While the cash register drawer was open, he noticed lottery tickets inside and purchased two. As the clerk handed them to him, he realized, "If I hadn't seen them, I wouldn't have bought them." That evening, using cardboard, he made his first lottery ticket dispensing prototype. The next evening he made his first plastic dispenser. All these years later, TAKE-A-TICKET, INC., the first lottery ticket dispenser company, continues to produce quality dispensers to each lottery's specifications.
